Best Regards

HOW TO USE / PERFUME BOTTLE ARTWORK
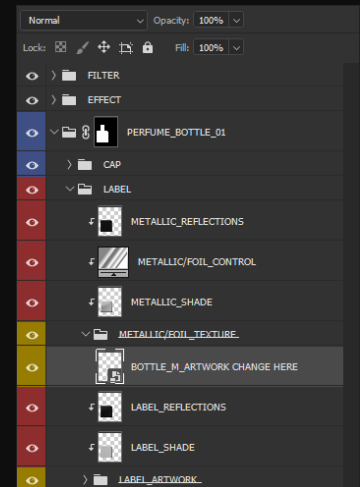

Our mockup is friendly and super easy to use.

Expand the "PERFUME_BOTTLE_01" folder, expand the "LABEL" folder, then expand the "LABEL_ARTWORK". Double click on the **"BOTTLE_L_ARTWORK CHANGE HERE"** to add your design to it, and a new window will pop up. Insert your designs in that window, save the changes, and then the design will be automatically updated.

METALLIC/FOIL TEXTURE

We have included a realistic metallic/foil texture that's suitable with your needs. Expand the "LABEL" folder, then expand the "Metallic/Foil Texture" folder. Double click on **"BOTTLE_M_ART-WORK CHANGE HERE"** and then insert your designs.
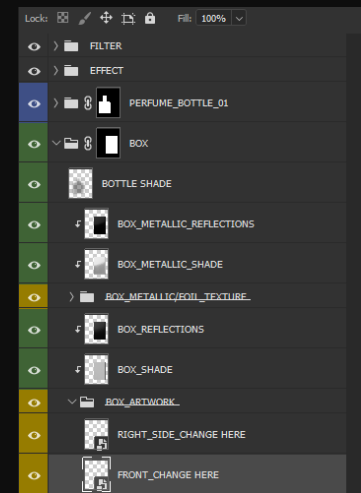

Note: The color of the Foil-texture will be affected by the previous colors you chose for your design.

HOW TO USE / BOX ARTWORK

Expand the "BOX" folder, then expand the "BOX_ARTWORK". Double click on the **"FRONT_CHANGE HERE"** or the side you'd like to add your design to, and a new window will pop up. Insert your designs in that window, save the changes, and then the design will be automatically updated.

METALLIC/FOIL TEXTURE

We have included a realistic metallic/foil texture that's suitable with your needs. Expand the "BOX" folder, then expand the "BOX_METALLIC/FOIL_TEXTURE" folder. Double click on **"FRONT_M_CHANGE HERE"** and then insert your designs.
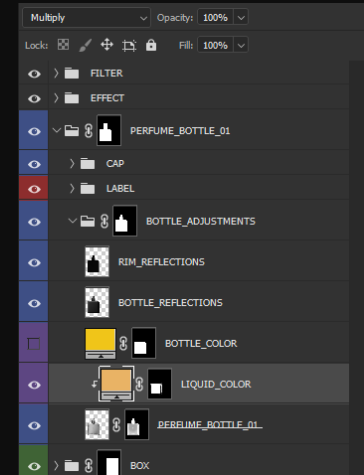

Note: The color of the Foil-texture will be affected by the previous colors you chose for your design.

BOTTLE&PERFUME COLOR

Expand the "BOTTLE_ADJUSTMENTS" folder, double click on "PERFUME_COLOR" layer, and a color picker window will pop up. Choose the color that meets your liking.

*For the Bottle&Cap color, use the same steps as shown above.*

BOTTLE REFLECTIONS

Go to the "BOTTLE_REFLECTIONS", move the opacity slider to the lift side to reduce the reflections of the bottle.

*For the RIM REFLECTIONS, use the same steps as shown above.*
If you'd like to add more reflection, just dublicate the reflection layer.

BOX METALLIC/FOIL REFLECTIONS CONTROL

It was challenging for us to add a metallic foil texture that has suitable reflections for all needs, so we've add a gradient fill effect that allows you to control it.

Expand the "BOX" folder, and double click on **"METALLIC/FOIL_CONTROL"**. Move the angel clock to control the rotation of the gradient.

Finally, we wish to inform you that we are ready and happy to assist you at any time. So please, do not hesitate to contact us if you require any further information.
